ADVANCED TECHNIQUES AND LOW COST AUTOMATION

Introduction vii

TECHNIQUES DE POINTE ET AUTOMATISATION A FAIBLE COUT

Introduction ix

HOUDREMONT LECTURE/CONFERENCE HOUDREMONT

Welding in the century of information technology 1
P. Drews and G. Starke (Germany)

Le soudage au siècle de l'informatique 21
P. Drews et G. Starke (Allemagne)

SESSION 1
DEVELOPMENTS OF LOW COST MECHANIZATION AND AUTOMATION IN WELDING ENGINEERING/DEVELOPPEMENT DE LA MECANISATION ET DE L'AUTOMATISATION PEU ONEREUSES DANS LE DOMAINE DU SOUDAGE

Mechanization and automation of heavy equipment welding in China 45
Lu Yansun (China)

Advanced applications for the energy related industries 57
B. Pekkari (Sweden)

Recent development of new mechanization, automation and robotization of welding operations in the Japanese shipyard 67
Y. Takeda, T. Kawano, H. Takeda and H. Iwabuchi (Japan)

Experience and application up-date: automation of A.W. operations using robot technology 75
G. Teubel (Spain)

SESSION 2
EXPERIENCES AND ECONOMIC ASPECTS OF APPLYING LOW COST MECHANIZED AND AUTOMATED WELDING SYSTEMS IN INDUSTRIAL PRODUCTION/ASPECTS ECONOMIQUES ET EXPERIENCE ACQUISE DANS L'APPLICATION DE MATERIELS DE SOUDAGE MECANISE ET AUTOMATIQUE PEU COUTEUX EN PRODUCTION INDUSTRIELLE

Economic robot welding production 87
E. Kroth and S. Seiler (Germany)

Implementation of low cost mechanization and automation in welding production in China 97
Shang Yang Lin (China)

Examples of application of low cost mechanization for the technology of flux shielded welding and surfacing in engineering practice 105
P. Blaškovič, E. Malinovská and E. Ehrenstein (Slovak Republic)

Automatization and robotization of small batch production 113
L. Quintino, O. Lopes, I. Fernandes and J.F. Oliveira Santos (Portugal)

The effect of low cost technologies in the design of welded structures 123
J. Farkas and K. Jármai (Hungary)

SESSION 3
DEVELOPMENTS IN ROBOTIZED WELDING SYSTEMS/DEVELOPPEMENTS DANS LE DOMAINE DU SOUDAGE ROBOTISE

Development of YAG laser welding robot system for repairing heat exchanger tubes 133
T. Nagashima, A. Yokoyama, T. Akaba, Y. Nagura, O. Matsumoto and T. Ishide (Japan)

Robotized fabrication of steel trusses for industrial building ceilings 139
L.M. Lobanov and V.A. Timchenko (Ukraine)

Whilst every effort is made by the publishers and editorial board to see that no inaccurate or misleading data, opinion or statement appears in this journal, they wish to make it clear that the data and opinions appearing in the articles and advertisements herein are the sole responsibility of the contributor or advertiser concerned. Accordingly, the publishers, the editorial board and editors and their respective employees, officers and agents accept no responsibility or liability whatsoever for the consequences of any such inaccurate or misleading data, opinion or statement.

Tout en veillant par tous les moyens à ce qu'aucune indication, information ou assertion erronnée n'apparaisse dans cette revue, les éditeurs et la rédaction tiennent à préciser que les données et les opinions figurant dans les articles et les publicités sont sous la responsabilité des auteurs d'articles ou de publicités concernés. En conséquence, les éditeurs, les rédacteurs en chef, le Comité de rédaction et leurs employés respectifs dégagent toute responsabilité vis-à-vis des conséquences d'indications, opinions ou assertions incorrectes ou erronnées.

Contents continued from previous page

Laser welding in shipbuilding 149
B. Koch (Denmark)
Different robot welding cells for small and medium batch sizes 151
R. Buchmann (Germany)

SESSION 4
ADVANCES IN SENSING TECHNIQUES/PROGRES DANS LA TECHNOLOGIE DES CAPTEURS
Sensing of weld pool penetration during GTA welding 155
Y.H. Xiao, A.J.R. Aendenroomer and G. den Ouden (The Netherlands)
Through-the-arc sensing: a multipurpose low-cost sensor for arc welding automation 165
U. Dilthey and L. Stein (Germany)
Automatic welding using laser-based 3D vision systems 173
J.P. Boillot, X. Yu, J.C. Fontaine (Canada) and J.L. Bréat (France)

SESSION 5
DEVELOPMENTS IN WELDING POWER SOURCES/DEVELOPPEMENTS DANS LE DOMAINE DES SOURCES D'ENERGIE POUR LE SOUDAGE
Recent advances in welding power systems for automated welding 185
M. Ushio, H. Yamamoto, Y. Nishida and T. Mita (Japan)
The development of arc welder in China 193
Li Jianguo, Zhu Qi and Liu Hejun (China)
Advanced synergic inverter power source and wire-feed system for GMA welding with integrated quality control system 205
R. Lahnsteiner (Austria)

SESSION 6
ADVANCED CONTROL TECHNIQUES IN WELDING PROCESSES/TECHNIQUES MODERNES DE COMMANDE POUR LES PROCEDES DE SOUDAGE
A new close-loop droplet transfer control system in the pulsed GMAW 217
Q.L. Wang, P.J. Li, L. Zhang, Q. Li and W.Y. Jiang (China)
A system for process quality evaluation in GMAW 227
D. Rehfeldt and Th. Schmitz (Germany)

SESSION 7
ARTIFICIAL INTELLIGENCE, CAD/CAM AND EXPERT SYSTEMS FOR WELDING AND ALLIED PROCESSES/INTELLIGENCE ARTIFICIELLE, CFAO ET SYSTEME EXPERT POUR LE SOUDAGE ET LES TECHNIQUES CONNEXES
Experiences in developing expert systems, and neural networks for arc welding 237
W. Lucas (UK)
Expert systems and their development 247
Chen Bingsen and Peng Jinning (China)
Robot welding in shipbuilding 255
T. Andersen (Denmark)
Low cost cell controller for a robot welding manufacturing system 259
Ch. Schiffers and P. Drews (Germany)
ACT WELD: a unique off-line programming software tailored for robotic welding applications 267
J.L. Bréat, F. Clément, P. Jadeau, A. Ijel, R. Macia and S. Zeghloul (France)
Application of neural network to visual sensing of weld line and automatic tracking in robot welding 275
Y. Suga, M. Naruse and T. Tokiwa (Japan)

SESSION 8
NEW DEVELOPMENTS IN WELDING TECHNOLOGY/NOUVEAUX DEVELOPPEMENTS EN SOUDAGE
New applications of plasma keyhole welding 285
E. Halmøy, H. Fostervoll and A.R. Ramsland (Norway)
Advanced welding computer system with integrated process and machine control 293
J.R. Anderson and J.V. Rampal (USA)
Recent progress of MAG welding material for automation 301
T. Suga (Japan)
Robotised GMA welding in lift truck production 309
V. Stenke and G. Brunner (Germany)
Spectral information of arc and welding automation 317
Li Junyue and Song Yonglun (China)

Contents continued opposite

Contents continued from previous page

POSTER SESSIONS

Study on seam tracking with contactless ultrasonic sensor 327
Hou Wen Kao, Zhang Shao Bin, Zhao Jia Rui, Hu Sheng Sun, Lu Deng Ping, Liu Gang and Sun Dong (China)

A new scanning method of optical sensor system for seam tracking in three dimensions 333
Wu Minsheng (China)

Two directional seam tracking system with a scanning infrared sensor and its applications in industry 341
Chen Wuzhu, Wang Yong, Ma Juwen and Zhong Minlin (China)

Arc welding robot work station for bulldozer frame 349
Liu Xuan, Yang Shutian, Deng Xiaoquan, Meng Meng and Liu Yang (China)

Research on intelligent control of robotics arc welding inverter and equipment 355
Huang Shisheng, Li Yang and Cheng Hui (China)

Weld quality control by neural network 359
Huang Shisheng, Li Di and Song Yonglun (China)

Development of an arc welding procedure expert system shell 365
Peng Jinning and Chen Bingsen (China)

Welding cracking prediction and diagnosis expert system 373
Li Wushen, Dong Jianming and Zhang Bingfan (China)

An expert system for generating welding procedures of boilers and pressure vessels 381
Wei Yanhong, Zhang Xiuzhi, Tian Xitang, Chen Yuchuan and Wang Shufen (China)

Special software for selecting filler material 389
Vl. Ochodek (Czech Republic)

Plasma arc keyhole welding of aluminium alloys 391
J.K. Martikainen (Finland)

Optimizing welding processes by using FEM tools 393
A. Hillebrand, I. Decker and H. Wohlfahrt (Germany)

Laser-enhanced gas tungsten arc welding (laser-TIG) 395
J. Wendelstorf, I. Decker and H. Wohlfahrt (Germany)

Experimental evaluation and calculation of transverse distortions due to welding in butt joints and T-joints 397
H. Wohlfahrt and Fan Zhang (Germany)

Resistance spot welding of aluminium alloy 407
J. Matsumoto (Japan) and Lian Jinrui (China)

A multi-stage solution for nesting in two-dimensional cutting problems using neural networks 409
Guk-chan Han and Suck-joo Na (Korea)

Effects of welding condition and deoxidizing elements of wire on the spatter generation in GMA welding 411
K.S. Bang, Y.H. Ahn and R.W. Chang (Korea)

Multiple wire submerged arc welding systems 413
B.R. Keville (UK)
